## ABOUT ME

I enjoy creating things that live on the internet. Currently a happy computer engineering student, who is always dedicated to perfecting his skills and addressing various challenges.

In addition to my passion for being constantly growing, I enjoy my hobbies in my free time. I have been a field hockey player since i was 4 year old. Also, i love riding ATV. My hobbies are a way for me to relax and disconnect from routine.

## EXPERIENCE

### Frontend Engineer

Jun 2023 - Present

*Upbrands Agency, Buenos Aires, Argentina.*

- Specialized in creating impressive and functional web interfaces.
- Effective collaboration with teams to transform creative concepts into high-quality, high-performance web solutions.

### Freelance Developer

Jan 2022 - Dec 2022

*Freelancing from Buenos Aires, Argentina.*

- I developed FiveM game server scripts, functionalities and interfaces for international clients, standing out for my ability to create unique and engaging gaming experiences.

## PROJECTS

### Inmunes Roleplay

Jan 2020 - Dec 2021

*Lua, HTML, CSS, JavaScript, jQuery, PHP, MySQL*

I led the development and management of Inmunes RP, a FiveM server that reached a daily average of more than 200 simultaneous players, standing out for its stability and immersive gaming experience. I achieved self-sustainability of the server by implementing an internal store, providing benefits to users and contributing to the continuous growth of Inmunes RP.

## EDUCATION

### Computer Engineering

Jan 2022 - Present

*Universidad Argentina de la Empresa (UADE), Montserrat, BA.*

### Higher diploma in English training

Jan 2011 - Dec 2021

*Brighton English Institute, Berazategui, BA.*
